

# *Building and Racing Slot Cars*

An example of a 1/24 scale slot car

**Sunday 30 June at 10am**  
*the Motueka Slot Car Club is holding three workshops on how to build and race a 1/24 scale slot car from start to finish*

To book your spot on the workshops [registration is essential](#).

Registration & enquiries to Pete at [motuekascc@gmail.com](mailto:motuekascc@gmail.com) or phone 027 295 1969

Cost per session is a gold coin – however for those who wish to build and keep a slot car (8 available) valued at \$130, the total entry fee for the **three workshops is \$25**.

**All participants will learn about:** Different types and makes of metal chassis and scalextric type slot cars, chassis building, dismantling and rebuilding a motor, machining a motor commutator, wiring, cutting out and painting a slot car body, soldering, trimming tyres to size, how a slot car hand controller works, and assembling a slot car ready to race.

The first of the 3 workshops starts Sunday 30 June then 21 July and 28 July

Where: Motueka Slot Car Club rooms, Marchwood Park kitchen block, 62 College St

Time: 10am to 12pm

After each workshop there is an opportunity to practice with club race cars.

On completion of all 3 workshops, participants will have the opportunity to race the car they built or helped build. A 'Seabird 1/25 scale RC boat' will be awarded to the winner/driver of the final race.
